BEST AT THEIR PROFESSION

Pursuant to the decision of the Company's management, the seventh competition for professional know-how and skills organized for the employees of LUKOIL called "Best at their profession" took place on the 23rd and the 24th of August 2013, in Nizhny Novgorod, the Russian Federation.

This international competition was attended by our representatives, Daniel Jakimovski and Ankica Zlatevska, who have demonstrated a great deal of professional knowledge and have shown, once again, that LUKOIL Makedonija employs many true professionals in their respective area of expertise.

The Company's management has expressed its gratitude for the participation at the competition with a true hope that the high level of professionalism of our employees shall serve as a basis and a guarantee for sustainable development of LUKOIL Makedonija.
